## FACT SHEET

### *About Us*

Marco D'Aiello has been working in the family brick paving business his entire life. 3D Brick Paving is a family owned business and has been installing brick pavers, natural stone, and retaining wall systems since 1972. Marco received his first opportunity to work with ponds when a supplier mentioned there was a pond building workshop at their location. Marco soon discovered how intricate and beautiful building a ponds really was. Working with natural products and shaping a waterscape is an art. Rushing home Marco immediately ripped up a section of his patio and started building a pond. Soon after Marco realized that he had a passion for waterscaping. Immediately, Marco began insisting that every family member was in need of a pond. With experience from family and friends 3D Water Gardens was born.

### *3D Water Gardens*

3D Water Gardens is a landscape contractor specializing in affordable Water features for suburban middle class households. They have been in business for two years providing water features including fountains (3 to 5,000), Pondless Waterfalls ( 4 to 8,000), and Full scale Ponds (6 TO 12,000).

### *Vision*

The perfect water feature in any backyard can create beautiful elegance. At 3D Water Gardens we are committed to meeting our clients' vast and distinctive needs, through exceptional customer service and by offering quality products that follow current home decorating and waterscaping trends. 3D Water Gardens strives to make redecorating an enjoyable experience. Waterscaping can reinvent any backyard experience with a new and intriguing style and look.

### *Design*

3D Water Gardens uses strictly Wisconsin granite, providing a very natural look to any waterfall. 3D Water Gardens offers urban, elegant, and casual designs, adding European style to your outdoor experience. Water gardens are vast in style and design and have the ability to create beautiful features with a clean, sleek style and look. With hundreds of products and designs that are now available from many manufacturers and our very own large updated outdoor displays, allow us to help create and design an appearance that you will enjoy for years to come.
